
A LIVING WAGE FOR PICTUREHOUSES STAFF

Today there is a strike by BECTU members at **The Ritzy** cinema in Brixton. The Ritzy is run by the same company that runs this cinema - Picturehouses.

The workers in Brixton are striking because Picturehouses is not paying them the London Living Wage. Picturehouses is now owned by Cineworld and is part of the largest chain in Europe. Most of the company's employees earn less than the Living Wage and are on zero hours contracts.

London is the most expensive city in the world to live in and the gap between rich and poor is increasing. Workers from university staff to council workers have demanded and won the Living Wage. Please support the staff at Picturehouses in their struggle.

Send messages of support to the Facebook group:
